

Criteria I

Key Indicator	Curriculum Enrichment
Metric No.	1.3.2

1.3.2: Percentage of students undertaking project work/field work/ internships (Data for the latest completed academic year)

1.3.2.1. Number of students undertaking project work/fieldwork / internships : 1063

Percentage=

$\frac{\text{Number of students undertaking project work/ field work / internships}}{\text{Total number of students during the latest completed academic year}} \times 100$

Percentage = $1063 / 2079 * 100 = 51.13\%$

PROBLEMS FACED WHILE PERFORMING ASSIGNED TASKS

01

Issues with time management: adapting to new changes in the lifestyle and work environment was not easy.

02

Having Supervisors Who Forget That You're New to the Field: They assigned projects to me and left me without detailed explanations.

03

My work was not used enough: there have been times when my employer assigned me a project where I put all my efforts, time and dedication and by the end of the day, it ended up not being used or published – either from a communications or that it automatically became unnecessary.

HOW WERE THE PROBLEMS ADDRESSED

01. TIME MANAGEMENT:

Self and time management can be achieved only through forming new habits and consciously adopting a better organized life. Making conscious efforts to work on this problem and watching it form into a new habit helped immensely.

02. HAVING SUPERVISORS WHO FORGET THAT YOU'RE NEW TO THE FIELD:

I realised that you never go wrong by asking. Asking my supervisor when I don't understand a particular task proved to be the right choice.

03. MY WORK WAS NOT USED ENOUGH:

I decided to not get frustrated and rather as an accomplishment and an opportunity to improve my skills.

**MY OPINION AS A STUDENT ON
THE FOLLOWING**

UTILITY OF THE INTERNSHIP PROGRAMME

1. Bridge between the classroom and the corporate world. The concepts that we are learning differs when we enter the working world. With the finance knowledge, I learnt how to apply the classroom knowledge & learning skills in the workplace. I also gained experience on the understanding of the concepts. Students that are willing to do internships.

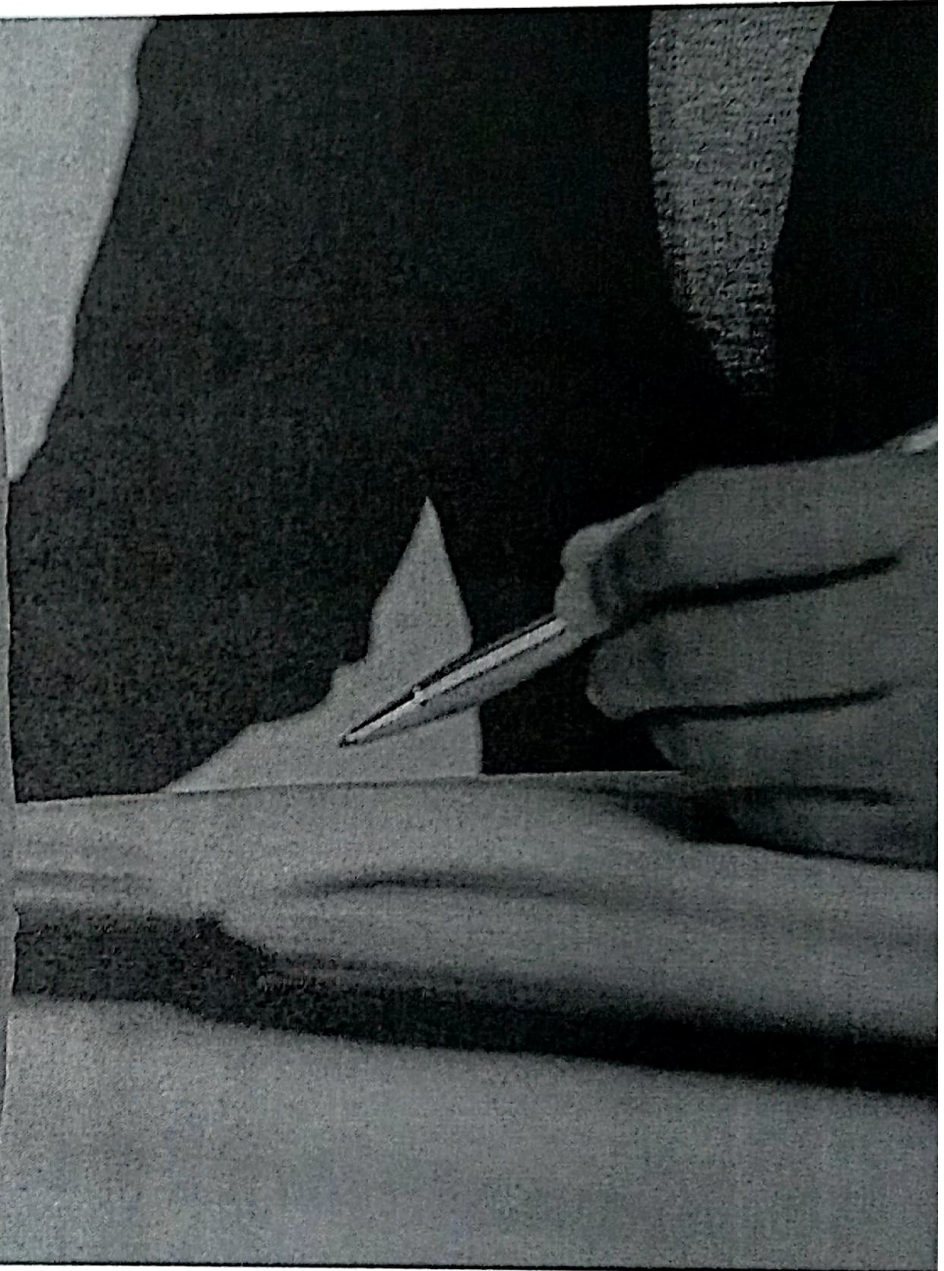

2. Professional skills development. The biggest benefit I gained with the internship is developing professional skills. I could develop these skills with total observation & practice.

ADEQUACY OF THE TIME ALLOTTED FOR PROGRAMME

The duration for our internship programme was 60 hours. In my opinion, providing 80-100 hours could prove to be more fruitful for all interns due to the following reasons:

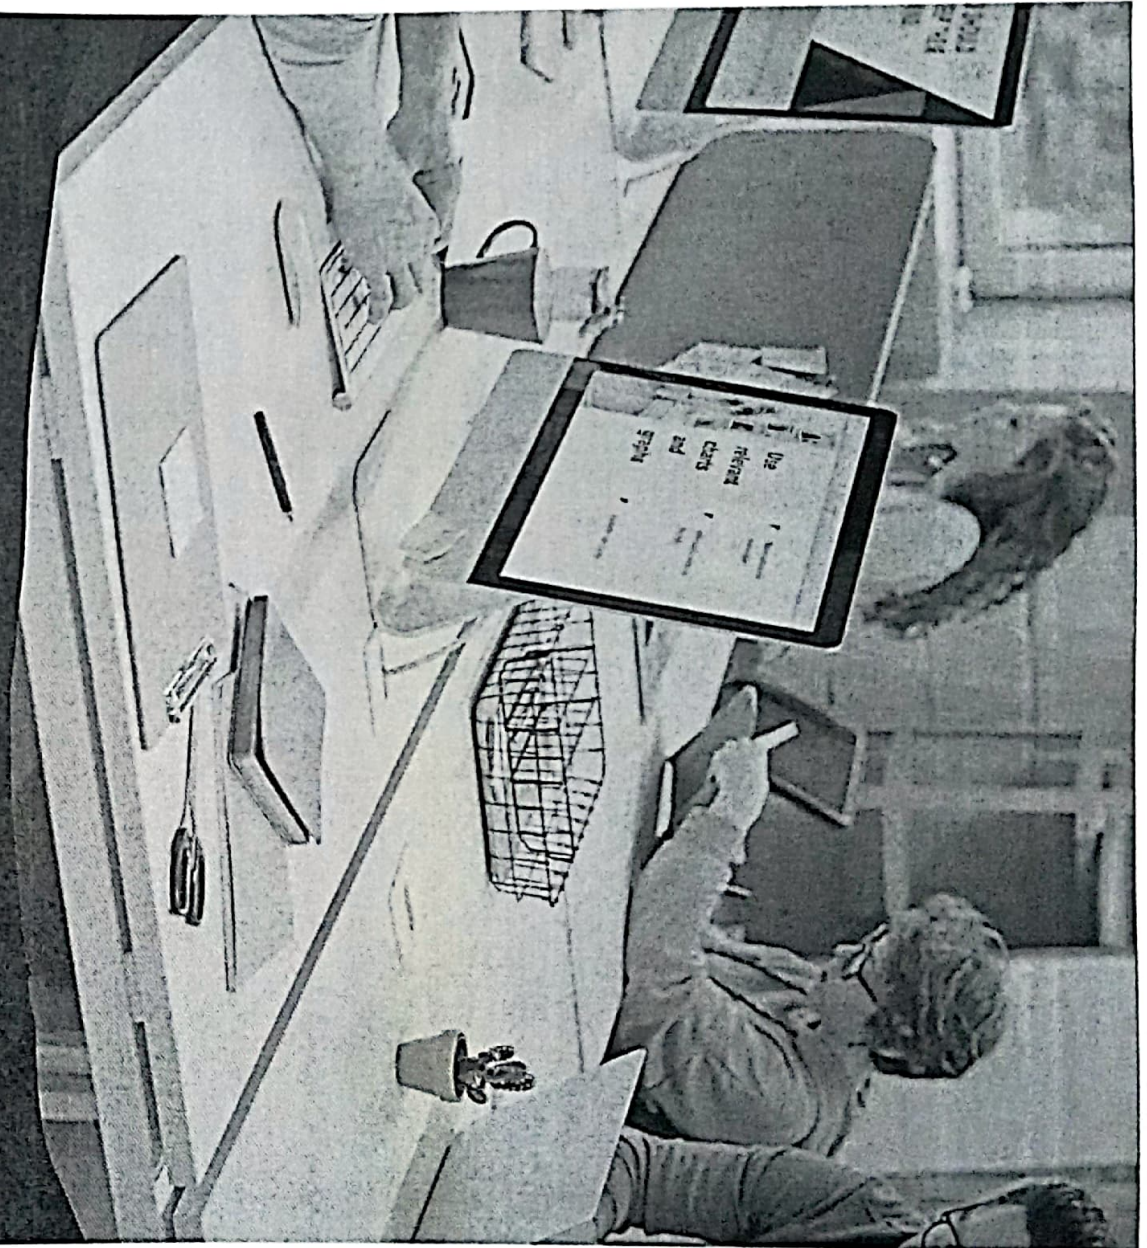

1. The initial time period (around 10 hours) were spent in getting aligned with the goals and working mechanism of the organisation.
2. A wider aspect of the job role could've been experienced by the interns.

WILL THE PROGRAMME IMPROVE EMPLOYABILITY

1. Helped to build network: Financial Internships is one of the best ways to build a professional network. While working as an intern, I connected from managers to other colleagues, this will help me grab the job opportunities after completion of my graduation.

2. Get what employers are seeking: Relevant experience is the main thing that every employer is seeking. Even for entry-level positions also they look for someone with better knowledge.

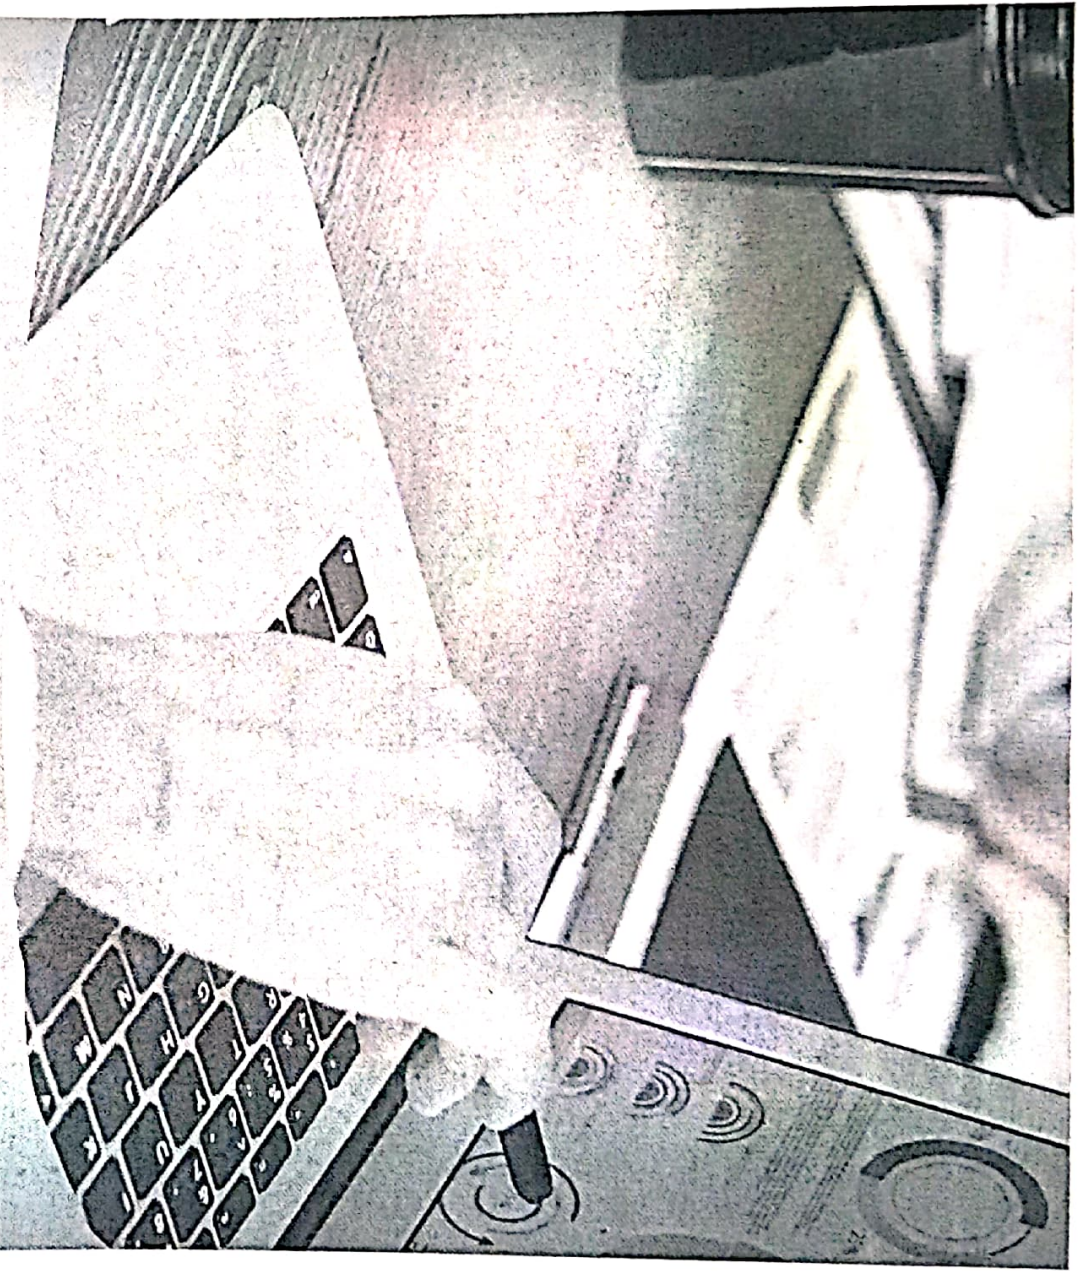

SUGGESTIONS FOR IMPROVEMENT IN SYLLABUS

The syllabus completely follows the theoretical aspect of the subject. Including practical implementation of the subject in the corporate environment would facilitate improved and efficient working at the organisation.

SUGGESTIONS FOR IMPROVEMENT OF INTERNSHIP PROGRAMME

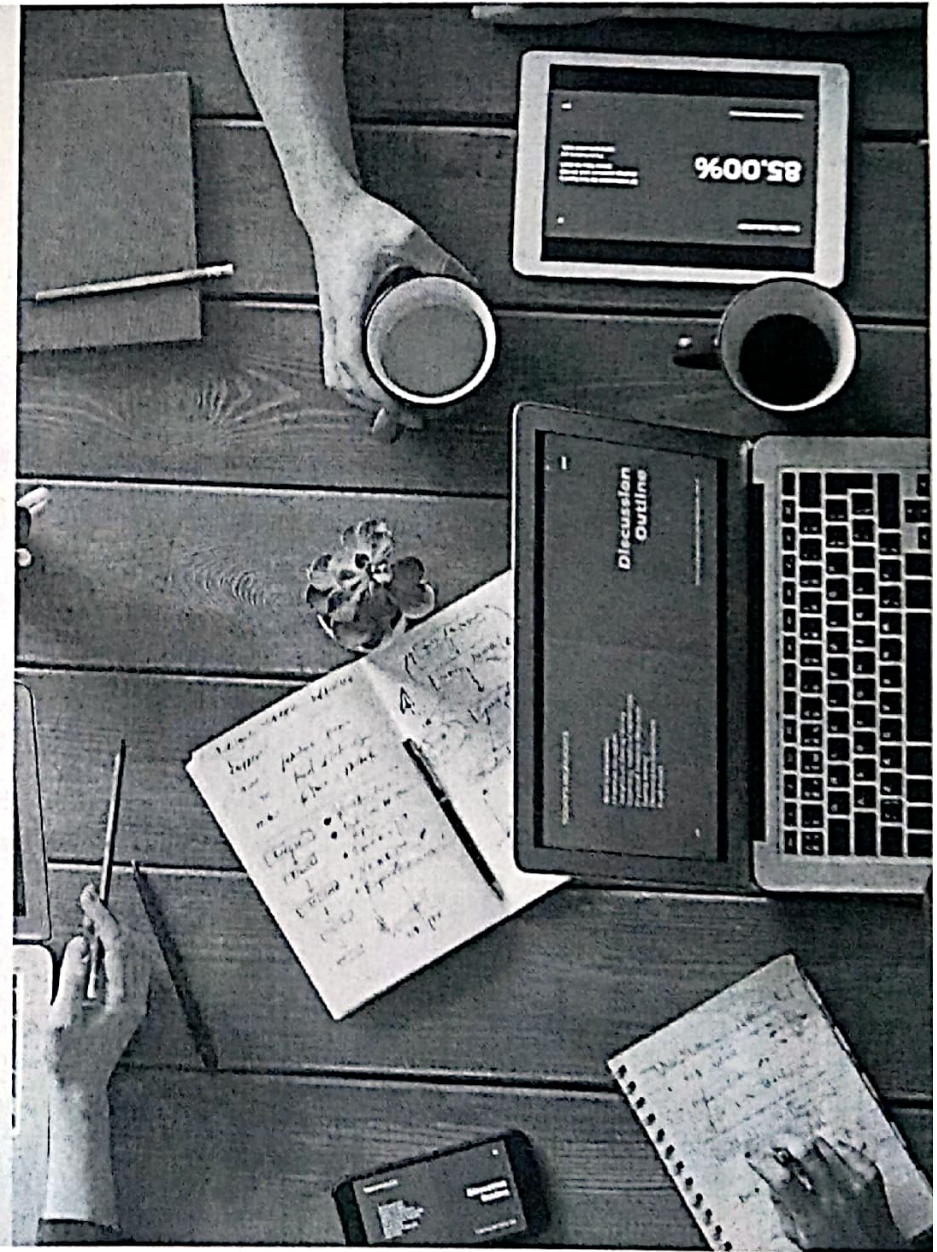

The internship has definitely promoted holistic growth in field of finance. Finance being comparatively more practical subject implies a need for an internship before stepping into the corporate world. The professionals I met might be the most valuable connections to my future jobs. The internship programme brought to us by SPPU and VCAES was extremely meaningful and effective.

OVERALL FEEDBACK ABOUT THE INTERNSHIP EXPERIENCE

The transition from college to full-time employment can fill you with excitement, anxiety, hope and ambition all at once. An internship is a good way to fill some transition time with the work you hope to do long-term. It can eliminate some pressure of quickly finding a permanent job and help you apply the skills and knowledge you have been studying into a practical situation.

This internship showed me how a company develops leaders rather than just learning about it in the abstract. I observed excellent time management skills and made a note of those I want to emulate. I learnt about valuable collaboration and cooperation skills. It has developed to a whole range of confidence-building attributes to apply to my future employment. In a nutshell, it was a comprehensive experience in the field of finance.

you!*
