BRACT's, Vishwakarma College of Arts, Commerce and Science, Pune, conducted five day's Workshop on "Machine Learning-Future Challenge" for Postgraduate as well as undergraduate students to increase their knowledge. This workshop was conducted on 15th June 2021 and 19th June 2021 at 11.00 a.m.

Date: 15th and 19th June 2021

Time: 11.00 am to 01.30 pm

Class: UG and PG students of Science

Platform: Google Meet

Expert Faculty: Mr. Rahul Pathak, Data Scientist at Klaxontech Inc.

Objective of Workshop:

- To aware students about Innovations and Inventions in Data Science Technology.
- To discuss implementation of different Machine Learning algorithm using Python.
- To give insight about the new Innovations in Machine Learning Technology.

Outcome of the Webinar:

Mr. Rahul Pathak has given the deep knowledge about the implementation of different Machine Learning algorithm nicely. He encourages students to do studies in Data Science.

Following points were highlighted in webinar:

- Sir has explained all the steps of Machine Learning Model Implementation.
- Different Classification, regression and Prediction algorithms are explained with implementation.
- Insight of Machine Learning technology is explained by using some good and interesting examples, so students understand that technology easily.

Students benefited – This workshop was extremely helpful and effective for all Students, in all 126 students were benefited through this session.

2 days Short Term Workshop on Python Programming Language

Date: 21/08/2019 to 22/08/2019

Venue: Hall No.004, VCACS, Pune

Class : BBA(CA), BSc(CS), MSc (CA), MSc(CS)

Subject Expert invited: Mr. Parth Shukla

VCACS has conducted workshop on "Python Language" 21st August 2019. Mr. Parth Shukla conducted the sessions. The students of B.Sc.(CS), BBA(CA), MSc (CA), MSc(CS) have attended the session.

Python is dynamically typed and garbage-collected. It supports multiple programming paradigms, including procedural, object-oriented, and functional programming. Python is widely used in scientific and numeric computing. Python is a superb language for teaching programming, both at the introductory level and in more advanced courses. Python offers many choices for web development.

Mr. Parth Shukla also discussed opportunities in field of python language programming. This lecture series will helpful to our students.

Students benefited - 112

Agenda of 2 days Workshop

Day 1:

1. What is python?
2. Applications of python (web applications, web frameworks, GUI based desktop applications etc.)
3. Data types in python with programs.
4. Loops & conditions in python with programs.

Day 2:

1. String manipulation.
2. Lists in python with program.
3. Tuples .
4. Dictionaries in python with program.
5. Sets in python.
6. Range, Functions, Variables in python.
7. Modules in python.
8. Introduction to data analytics.
9. Applications of data analytics.
10. Connectivity of machine learning & artificial intelligence with data science.
